MAKE A PAPER GUITAR

MATERIALS NEEDED:

- Shoe box or other small rectangular box
- Six rubber bands
- 12 brass fasteners
- Tape
- Toilet paper tube

HOW TO: (picture on next page)

- Draw a big circle in the center of the box lid
- Cut it out carefully and neatly
- Evenly push six brass fasteners into one of the smaller ends of the box
- Spread out the two flaps of each fastener on the inside so that the fastener does not slip out
- Do the same on the other end
- Cut the rubber bands equally to create six single pieces
- Tie one end onto a brass fastener, stretch it across and tie the other end
- Repeat the process for all six rubber bands
- Cut open the toilet paper tube and flatten it down
- Overlap the open edges
- Slip the tube carefully under the rubber bands so the tube acts as a bridge lifting one end slightly higher than the other
- Make some noise!
